ABBEY MACHINERY

New Product!
Bale Shears

Unlocking Efficiency in Bale Handling and Processing

Designed to revolutionize your bale handling operations, Abbey Bale Shears are engineered with cutting-edge technology to streamline the process of splitting round bales while retaining plastic.

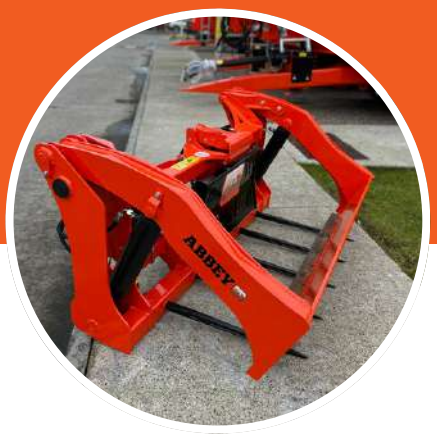

Features

- Splits round bales while retaining plastic & net
- Improved operator efficiency & safety
- Reduces feeding time
- Our Bale Shears come equipped with Euro brackets as standard, ensuring compatibility and easy integration with your existing tractor and equipment
- Cuts silage, hay & straw expertly
- Requires one double acting hydraulic service
- Ideal for splitting bales and feeding into a diet feeder or in front of feed barriers

New Product!
Bale Shears

Benefits

- Enhanced Efficiency: With Abbey Bale Shears, split bale handling becomes faster and more efficient, reducing labour costs and increasing overall productivity.
- Preservation of Plastic: Retaining plastic during the splitting process ensures minimal waste, helping you maintain environmental sustainability and cost-effectiveness.
- Seamless Integration: Designed for seamless integration into your existing workflow, Abbey Bale Shears adapt to your farm's operations, minimizing disruption and maximizing efficiency

Bale Shear Dimensions

Length	Width	Height (Closed)	Height (Open)	Max Blade Opening	Max Blade Cutting Width	Hydraulics Required	Standard Linkage	Weight With No Linkage	Oil Pressure Allowed	Oil Flow	Max Bale Weight
1125 mm	1850 mm	840 mm	1695 mm	1415 mm	1700 mm	Double Acting Service	Tractor Euro Brackets	440 KG	150 Bar	20 L/Min	1500 KG
