DIRECT AUGER DRIVE REVERSIBLE GEARBOX

- This heavy duty drive is simple, reliable and easily accessible when routine maintenance is required.
- Discharge rotor is fitted with shear bolt as standard.
- Rotor Fitted to the right hand side of the Spreader.
- Door open/close indicator is clearly visible from the tractor cab.

RUGGED CONSTRUCTION

- Built to provide trouble free service and minimal maintenance and downtime.
- Spring paddles ensure an even flow of material into the discharge rotor.
- Double skinned floor increases the working life span of the machine.
- Unique floor design reduces the possibility of small stone blockages.
- Continuous even spread, fast and complete emptying.
- Positive weight transfer to tractor.
- Optimum spiral on auger with 10mm thick fins.
- Low horse power requirement

ACCESS HATCH / STONE TRAP

- Allows access to feeding out area for easy removal of unwanted obstructions.
- Rugged construction and easy to open.
- Situated on the base of the machine, rather than on the side. This allows much easier access to a problem, should the need arise.

EXTERNAL SHEAR BOLT PROTECTION ON AUGER AND DRIVESHAFT'S

OPTIONAL SLURRY SPREADING KIT

TRUSTED BY GENERATIONS
